

LODGE RESERVATIONS WILL ANNUL TREATY

DALMATIAN COAST IS IN HANDS OF D'ANNUNZIO NOW

Italian Commander of Dalmatian Troops Joins Rebel Poet.

By Associated Press Leased Wire
Fiume, Sunday, Nov. 16.—Gabielle D'Annunzio's latest exploit appears to have made him master of the entire Dalmatian coast. It secured the adherence to his side, of Admiral Millo, commander of the Italian occupation forces in Dalmatia, thus giving D'Annunzio a continuous command from the Austro-Italian armistice line north of Fiume, southward to Ragusa, just to the north of Cetinje, covering all the approaches to the Dalmatian coast. Four warships, including a dreadnaught and four torpedo boat destroyers have been added to the D'Annunzio's naval command, giving him a formidable weapon with which to maintain his present position.

MILLO JOINS REBELS
By Associated Press Leased Wire
Fiume, Saturday, Nov. 15.—Admiral Millo, the Italian commander of the Dalmatian occupation forces, has gone over to the cause of D'Annunzio, swearing complete loyalty to the poet and declaring that not one Italian soldier will leave Fiume included in the pact of London.

Admiral Millo wrote to Premier Nitti informing him of his action. The premier replied: "I am not astonished at the latest D'Annunzio enterprise. However, I am sorry for your action."

It is announced D'Annunzio will occupy all of Istria, including the sections Foreign Minister Tittoni proposes shall comprise an independent state. D'Annunzio returned here this evening from his expedition to Zara on the Dalmatian coast. His arrival was the occasion for an enthusiastic demonstration. He left the garrison at Zara commanded by one of his officers.

TITTONI WOULD RESIGN
By Associated Press Leased Wire
Rome, Sunday, Nov. 16.—Foreign Minister Tittoni has again expressed a desire to resign. He gave as his reasons the state of his health and the complications beyond his control which have arisen in the Adriatic situation. President Wilson's attitude on the Adriatic problem, which the foreign minister declares he has vainly done everything in his power to modify, is also mentioned.

ODD FELLOWS OF ILLINOIS MEET FOR CENTENNIAL

By Associated Press Leased Wire
Springfield, Ill., Nov. 17.—Chief interest in the annual meeting of Illinois Odd Fellows which began here today centered in the celebration of the order's one-hundredth anniversary.

Part of the 6,000 delegates to deliberations of the grand lodge, grand encampment and the Rebekah assembly were here this morning for the preliminaries of organization.

A pageant and parade are included in the exercises arranged to commemorate the centennial of the lodge. Questions of internal administration will occupy the business meetings, it was announced by Grand Secretary John H. Sikes.

NEGRO CENSUS TAKER
By Associated Press Leased Wire
New York, Nov. 17.—Negroes will be engaged as federal census takers in sections where they form the largest element of the population for the first time in history, Arthur G. Dore, United States supervisor of census, announced today. Preference will be given to negroes who were in the military service.

FATAL WRECK
By Associated Press Leased Wire
Lancaster, Pa., Nov. 17.—One man is dead, another dying and several more were injured today as a result of the sidwiping of a freight train by the Buffalo Express on the Pennsylvania railroad near here. Both engines were overturned and the fireman of the freight was scalded to death. A trainman is believed to be buried in the wreckage. Another trainman is dying.

CONDUCTOR KILLED
By Associated Press Leased Wire
Harlan, Ia., Nov. 17.—William Johnson, of Carroll, Ia., conductor, was killed yesterday in a rear end collision of two freight trains on the Chicago & Greatwestern railroad near here. The cab in which Johnson was, and five cars loaded with meat, was smashed.

BENEFIT DANCE WEDNESDAY
On Wednesday night of this week the Tootsweeters orchestra will give a benefit dance at Rosbrook Hall. The hall has been donated and the music will also be donated, and it is hoped that there will be a big attendance. The cause is very worthy and should receive popular support.

TO NORTH SIDE
Mr. and Mrs. Edward Collins have moved from First street to No. Jefferson avenue.

DIXON PLUMBERS STRIKE TO FORCE INCREASE IN PAY

Want 75 Cents More a Day — Conference May Be Held.

Dixon journeymen plumbers this morning struck for an increase in their scale of wages and none of the tradesmen took up their tools at the customary hour. The plumbers are asking for an increase of about 75 cents a day, attributing their demand to the present high cost of living. They have been receiving about 75 cents per hour, as stipulated in their contract with the building contractors.

One of the shop owners this morning stated that the movement for an increase had been in progress for about ten days but that this morning the plumbers struck until their request was granted. He added that a meeting would probably be held during the day or this evening between the owners of the shops and the plumbers in an effort to settle the matter. The scale under which local plumbers have been working expires May 1, 1920.

"Plumbers in Dixon are not receiving as high a scale of wages as is being paid in Rochelle, Rockford and other surrounding towns," said one of the shop owners this morning. "The men really have some grounds for making their demands and they may win their point. The increased cost of living expenses has brought on the action and the demands are not unreasonable. It will if granted, work a hardship on some of the shop owners who have large contracts, but there is a great deal of work to be done at this time of the year and plumbers are constantly in demand."

OLD SOLDIER STRUCK AND INJURED BY CAR SATURDAY AFTERNOON

William Whitebread Still in Semi-Conscious Condition Today.

William Whitebread, 421 East Seventh street, an old soldier, was struck and knocked down by an automobile driven by Miss Mary Morrison Saturday afternoon at the intersection of Peoria avenue and First street, receiving injuries the extent of which have not yet been fully determined. He was crossing the street from the Union State bank to the Briscoe Toggery shop when he was struck in the side and knocked down.

Parties who were near the scene of the accident assisted the aged man into the Briscoe shop and a few minutes later he was taken to his home by Miss Morrison and Dr. W. E. Parker was summoned. He was suffering considerably from the shock as well as slight body bruises and the attending physician stated this morning that he may be suffering from internal injuries. Reports from the home this morning indicated that there was very little change in his condition and that he was suffering considerably from shock and was in a semi-conscious condition.

Minor Accidents Reported.
Yesterday morning at 8:15 a car driven by Fred Enichen, 801 Palmyra avenue, ran into a Ford car owned and driven by A. F. Dillman, of route 1, at the corner of Galena avenue and Second street. The Dillman car was damaged to the extent of one broken wheel and a fender badly bent. The Enichen car was west of the west crossing when Enichen struck it. Enichen believed that he had the right of way.

Two Ford cars came together at the south approach of the Galena avenue bridge this morning about 9 o'clock. One of the cars belonged to Lester Hanes and the other to Herschel Scholl, both of Polo. The front axle of the Hanes car was bent and the running board on the Scholl car was damaged.

Two Ford cars crashed head-on at the corner of Peoria avenue and River street about 8 o'clock this morning, both being somewhat damaged.

Butter Reaches New High Point Today

By Associated Press Leased Wire
Chicago, Nov. 17.—Highest prices ever known for butter were reached in Chicago today, 70c a pound for creamery extras, wholesale. This same grade never went above 67c during the period of active hostilities of the World War.

Receipts of butter here of late have been much curtailed as compared with a month ago.

JAMES KEENAN BADLY HURT IN FALL OF 30 FEET AT ICE HOUSE

Compound Fracture of Jaw and Collar Bone Are Among Injuries.

James Keenan, residing east of Dixon on the river road, narrowly escaped instant death this morning shortly before 10 o'clock when he fell a distance of about 30 feet from the top of the Watson ice house, where he was working, to the ground. The right side of his face was terribly mangled and the jaw bone was shattered by the fall.

He was hurried to the hospital in the Preston ambulance and taken to the operating room where he was given medical attention. It was found that he had suffered a double compound fracture of the right jaw bone and the left collar bone was also broken. Two cuts in the right side of the head penetrated to the bone. The attending surgeons announced at noon today when they left the operating room, that Mr. Keenan was resting as easily as could be expected and intimated that his condition was not considered serious.

Mr. Keenan was working in the interior of the big ice house on East River street, when he missed his hold and fell, striking other timbers in the fall, which shattered the jaw bone. He maintained consciousness until placed under an anaesthetic in the operating room.

BROKEN BACK IS FATAL AFTER TEN WEEKS SUFFERING

Emerson H. Long, I. N. U. Lineman, Died Saturday Night.

Emerson H. Long, lineman for the Illinois Northern Utilities Co., who suffered a broken back in a fall off a pole near West Brooklyn on Sept. 4, passed away at midnight Saturday at the Ambulatory hospital where he had been confined since the accident over ten weeks ago.

Readers of The Telegraph will remember that Long had been sent out from Amboy to ascertain some information concerning certain equipment on the West Brooklyn line and that his wife accompanied him on the trip. She was seated in the buggy watching him while he climbed a 30-foot pole and started to take a metal tag off the apparatus at the top of the pole, when suddenly he fell. The spinal cord was broken in the fall and from that time until his death the unfortunate young man lay in a paralyzed condition.

Inquest Held Sunday.
The inquest was conducted by Coroner S. J. Whetson Sunday afternoon, the jurors being G. L. Carpenter, Clark Butler, Robert K. Reid, W. D. Scott and A. C. Kauffman and the verdict being that death had resulted from "paralysis due to severance of the spinal cord, caused by a fall from the top." (Continued on Page Five.)

AUTOMOBILE CAUGHT FIRE SUNDAY EVE

A Ford roadster caught fire last night about 10:30 in front of the Sam Bacharach residence on West Second street. Two blankets were almost completely destroyed and the upholstery and the top were also badly damaged before the blaze was extinguished. Occupants of the car, whose names were not learned, formed a bucket brigade and extinguished the fire with buckets of water carried from the Bacharach residence.

TWO BEIER FARMS SOLD ON SATURDAY

Master in Chancery Mark C. Keller and Attorney Harry Warner Saturday afternoon disposed of two valuable Lee county farms belonging to the heirs of the Reinhold Beier estate. The 218-acre tract located in Palmyra township was sold to Eugene Stiles at a consideration of \$291 per acre. The 193-acre tract in Nachusa township was bid in by Otto Beier of this city at a consideration of \$255 per acre. Both farms were bid in by the heirs of the estate.

SAYS SHE KILLED WOMAN
By Associated Press Leased Wire
Minneapolis, N. Y., Nov. 17.—Mrs. Marie Warren, divorced wife of an actor and formerly a resident of Indianapolis, confessed today that she killed Mrs. Clara Branch at Lynbrook last Friday. District Attorney Weeks announced today. Mrs. Warren surrendered herself to the police when she read of statements by Capt. Henry Wright for whom Mrs. Branch was housekeeper, that he had left two women at his home Friday morning.

HAND PAINFULLY PINCHED.
George Cowan, meat cutter at the Mathias market, is unable to be at his work this week as the result of a painful injury to his left hand Saturday, when helping unload a big kettle from a dray, the heavy iron fell on the hand, pinching it severely.

MINERS WAIT RESULT OF CONFERENCE; AND FUEL SHORTAGE GROWS

Lightless Nights and Heatless Days Must Go Into Effect.

By Associated Press Leased Wire
Charleston, W. Va., Nov. 17.—In spite of predictions by leaders of the striking miners that the men would return to work today, reports reaching the Kanawha Coal Operators' Association this morning showed few additional miners added to working forces and no active mines added to last week's list. "The union officials seem to have lost control of their men," said D. E. Kennedy, secretary of the association. "Despite the promises of Mr. Keeney, district president of the United Mine Workers and other officials that the men would return to work today we note little improvement in the situation."

By Associated Press Leased Wire
Chicago, Nov. 17.—While operators and union leaders had predicted resumption today of mining on a large scale in the bituminous coal fields of the country where more than 400,000 miners have been on strike for sixteen days, only in West Virginia were both sides confident that "all the men" would be back to work during the day.

In the other large producing fields the men showed a disposition in most cases to await further results of the conference at Washington of operators and union officials over a new wage agreement, before returning to work.

War Time Regulations
In the meantime a threatened coal shortage in the middle west has caused the regional coal committee to consider means of conserving fuel.

In Indiana an order prepared by the public service commission reviving lightless nights and heatless days of war time, is to go into effect tonight as a means of preserving coal supplies. The railroad administration today took off a dozen local passenger trains on the Chicago, Milwaukee & St. Paul railroad here and at Milwaukee.

It was also said by members of the fuel committee that unless production is resumed on a larger scale within a short time it will be necessary to cut off coal from non-essential industries.

EXPECT MEN TO WORK

By Associated Press Leased Wire
Pittsburgh, Pa., Nov. 17.—Union coal mines of Western and Central Pennsylvania were expected to resume operations today by employers, who stated the belief that a large percentage of the miners would return to work some time today. No statement was issued at union headquarters.

WILL WORK TODAY?

Charleston, W. Va., Nov. 17.—Leaders of the United Mine Workers of America and coal operators of West Virginia expressed the opinion early today that a majority of the miners who did not obey union orders to return to work last week, would enter the mines during the day. Representatives of the union were confident that most of the men would be back on the job today.

Early reports received from union coal fields of the state gave no figures but indicated that a number of the miners had expressed a willingness to resume work.

ILLINOIS MINERS IDLE

By Associated Press Leased Wire
Springfield, Ill., Nov. 17.—Soft coal miners in Illinois were idle again today in furtherance of their strike for higher wages and shorter hours.

The third week of the tieup apparently found the mine workers in this state determined to stay out until assured of a satisfactory wage agreement, despite the order of their officials rescinding the strike call under court compulsion. Some operators had held to the opinion that there might be a breaking away from the strike of a few miners with the opening of the present week, but early indications did not bear out this belief.

INDIANA WAITS VERDICT

By Associated Press Leased Wire
Indianapolis, Nov. 17.—No union miners returned to work in the Indiana bituminous coal fields today. It was generally conceded today by members of the Indiana Coal Operators' association that no coal will be mined in district 11 until an agreement is reached in Washington.

WORK IN WYOMING

By Associated Press Leased Wire
Sheridan, Wyo., Nov. 17.—Virtually all northern Wyoming coal miners returned to work today.

Seize Two Boats in Campaign Against Island Booze Running

Miami, Fla., Nov. 17.—Seizure by federal authorities of two boats plying between Florida ports and the Bahama Islands was declared today to be the first step in a campaign to end illicit liquor traffic between the nearby British possessions and this country. The vessels were seized under the technical charge of sailing for a foreign port without the necessary clearance papers.

NEW LAW WOULD CURB RADICALS; PROVIDES LONG PRISON TERMS

Poindexter Bill Provides Prison Sentence of 40 Years.

By Associated Press Leased Wire
Washington, D. C., Nov. 17.—The writing, printing, circulating or uttering of language the forcible overthrow of the government would be made a felony punishable by a fine not exceeding \$50,000 or 20 years imprisonment under a bill introduced today by Senator Poindexter, republican, Washington. The measure was referred to the judiciary committee.

Persons convicted of destruction of private property or injury to a person while engaged in an attempt against organized authority would be sentenced to not more than 40 years imprisonment or fined \$50,000.

Property owners permitting meetings where overthrow of the government was advocated would also be punished under the act, which also provides a penalty of death for any one who by violating the act causes the death of a person.

"The bill," Senator Poindexter said, "is intended to enable the United States to protect its functions and agencies from anarchy and bolshevism. It is aimed at organizations such as the Industrial Workers of the World and other unlawful organizations in the United States which have been particularly active in recent months."

Five Killed When Gas Tanks Explode

By Associated Press Leased Wire

Hays, Kan., Nov. 17.—Five persons were killed and more than 25 injured when a tank of gasoline exploded at a filling station here today. Seven buildings and the Farmers Elevator caught fire and burned but the fire was soon under control with the aid of firemen from nearby towns.

The fire at the oil station was due to the backfiring of a motorcar, according to the authentic information on available. In a few minutes the fire was raging around the storage tanks. With a terrific roar a large gasoline container exploded. The tank, 10 feet in diameter and 16 feet long soared into the air and traveled two blocks north where it fell on a house.

JAMES W. BENSON IS CALLED TO ETERNITY

James Wesley Benson, aged resident of this city, passed away at the home of his son, Henry Benson, 717 College avenue last evening at 11:15, death resulting from a complication of troubles following an illness with influenza. Mr. Benson was born in Columbus, Ohio, October 17, 1844, and when a young man came west, settling near Harmon. For the past 25 years he has made his home in Dixon.

He is survived by his wife and five children as follows: John of Chicago; Mrs. Maude Kinney of Chicago; Fred of Madison, Wis.; Mrs. Florence Schaffer of Muscatine, Iowa, and Henry of this city, with whom he has made his home for several years. The funeral will be conducted from the home Wednesday afternoon at 2:30, Rev. E. C. Lumsden officiating. Burial will take place in Oakwood.

Bandits Rob Bank; Escape From Posse

By Associated Press Leased Wire
Palmyra, Ill., Nov. 17.—Two automobile bandits, who blew open the safe of the Palmyra State Bank early today, escaped from a thick six miles east of here when a posse of 600 farmers attempted to capture them shortly before noon. The posse continued the pursuit.

OFFICIALS ARE HOME WITH THE PRISONERS

State's Attorney Harry Edwards and Deputy Sheriff Robert Phillips returned home shortly after dinner this afternoon from Pocatello, Idaho. They brought with them Mr. and Mrs. Marian Gilmour and their nine months old son. The parents are in the county jail and will be tried on charges of bigamy and perjury, respectively.

KNIGHTS TEMPLAR MEET

A stated meeting of Dixon Commandery No. 21, Knights Templar, will be held at 7:30 o'clock tomorrow evening for business.

HE FINDS IT PAYS.

W. F. Graves, Amboy hardware dealer, writes the Telegraph: "You may be pleased to know that I sold five sets of farm harness inside of ten days as a result of your ads. 'Does it pay?'" Mr. Graves finds it pays to advertise, and so does every other merchant who uses the Telegraph to advertise clean, honest goods.

FEDERAL COURT KEEPS WETS ON ANXIOUS SEAT

Carpenter Says Decision Probably Will Not Come Today.

By Associated Press Leased Wire
Chicago, Ill., Nov. 17.—Federal Judge Carpenter said this morning that "in all probability he would not give a decision today in the injunction suits brought by Chicago and Peoria, Ill., liquor dealers to restrain federal officials from enforcing the war-time prohibition law. He said he would notify both sides when the decision was ready but gave no hint of when they might expect the ruling. He was in conference with Federal Judge Fitzhenry who sat with him in the hearing of the cases, throughout the day.

The court room was crowded with liquor dealers, saloonkeepers, dry leaders and their attorneys when court convened at 10 o'clock.

Representatives of the liquor dealers expressed disappointment at the further delay in the decision. After hearing a few routine motions Judge Carpenter adjourned court.

CONFERENCE IS HELD UP TODAY BY OPERATORS

By Associated Press Leased Wire

Washington, D. C., Nov. 17.—The conference of wage scale committees in the central competitive bituminous coal field was postponed today at the request of the operators, who were not ready to submit a counter proposal to the demands received from the miners Saturday.

Meantime a committee of the operators was framing a reply. It was said the question of the renewal of work by the miners was one of the matters to be brought up by the operators.

Wyoming miners and operators have reached a settlement satisfactory to both parties and the mines will be reopened at once, according to a telegram from P. J. Quealy, president of the Wyoming Coal Operators' Association received by Secretary Wilson. The final contract in the Wyoming field is to be based on the agreement reached in the central competitive field, Mr. Quealy said.

FORCE MEN TO WORK?

By Associated Press Leased Wire

Washington, D. C., Nov. 17.—Operators in the soft coal industry today considered calling upon the department of Justice to enforce more vigorously the federal court mandate restraining the striking miners and to force resumption of work in those districts where the men walked out Nov. 1.

The government has not done its full duty in merely requiring the withdrawal of the strike order, several operators declared, pointing out that a general stoppage of production of coal exists in many mines employing union labor.

Notices of the withdrawal of the strike order were sent out on plain paper instead of official stationery and without the organization seal facsimile signatures of the officers of the United Mine Workers of America it was said.

Meantime the joint wage scale committees of the miners and operators in the central competitive field renewed negotiations on the demands of the workers for a sixty per cent wage increase, a six-hour work day, and a five day week. The sessions, which are executive, are being held in the hall where their deliberations came to a fruitless end the last week of October.

PRESIDENT ASKS GLASS TO ACCEPT PLACE IN SENATE

By Associated Press Leased Wire

Washington, D. C., Nov. 17.—At the request of President Wilson, Secretary Glass will accept the appointment as senator from Virginia to succeed the late Senator Thomas S. Martin, it was announced today at the White House.

After receiving the appointment from Gov. Davis, of Virginia, Mr. Glass asked the President what his wishes were and Mr. Wilson replied that he would like Mr. Glass to accept.

Secretary Glass has consulted with members of the senate who told him that there was no particular need for him to take the oath as senator for a week or more. Meantime he will continue to serve as head of the treasury department.

At the White House it was said no successor to Mr. Glass had been decided upon and that the President's mind was open. The name of Daniel C. Roper, commissioner of internal revenue, was added to the list of those being discussed as probable successors to Mr. Glass.

Anti-Saloon Leaguer Will Lose His Eyesight

By Associated Press Leased Wire
Lopdon, Nov. 17.—The injury to the eye, which William E. ("Pussyfoot") Johnson, the American Anti-Saloon League organizer received last week during a demonstration by students, is proving more serious than at first thought. A second specialist has been consulted and another operation has been performed. It is feared it may be necessary to extract the eye. His sight has been permanently impaired, it is said.

PIGEONHOLE FOR TREATY, WILSON TELLS SENATORS

President Will Pocket Treaty with Lodge Reservations.

BULLETIN.

By Associated Press Leased Wire
Washington, Nov. 17.—The foreign relations committee reservation excluding the United States from any responsibility in regard to disposition of the German colonies was rejected today by the senate.

The reservation, which was the first of the committee group to be defeated, failed to command the support of the mild reservation republicans and was opposed also by some of the republican irreconcilables in addition to the administration democrats.

The vote rejecting the reservation was 64 to 29. Twenty-two republicans voted against the reservation while three democrats, Shields, Tennessee; Reed, Missouri; and Walsh, Massachusetts, voted for it.

MAY BLOCK MARSHALL.

By Associated Press Leased Wire

Washington, Nov. 17.—A number of the mild reservationists conferred today and at least part of them were said to have agreed to vote against upholding Vice President Marshall should he rule that a second ratification resolution could be reconsidered after that reported by the foreign relations committee had been rejected.

By Associated Press Leased Wire

Washington, D. C., Nov. 17.—President Wilson will pocket the peace treaty if it contains the Lodge reservations, he told Senator Hitchcock at a conference today at the White House.

"The President has read and considered the Lodge reservations," Senator Hitchcock said, "and he considers them a nullification of the treaty and utterly impossible."

The program outlined by Senator Hitchcock after he had seen President Wilson last week will be carried through in the senate, Mr. Hitchcock said. This contemplated defeat of the ratification resolution, with the Lodge reservations attached, and the offering of a resolution for ratification without reservations. With the defeat of this resolution a deadlock would follow and compromise sought.

Senator Hitchcock was with the President for an hour.

Is Much Improved.
"I find the President is very much improved since I saw him last," the senator said on leaving the White House. "He looks better, talks better and is much more aggressive. I find that he has read and considered the Lodge reservations and that he considers them a nullification of the treaty and impossible."

"Did the president tell you what his course would be in the event the Lodge reservation are accepted by the senate?" he was asked.

"The President will pocket the treaty," was the reply.

"Even if reservation fifteen is stricken out?"

"Yes." That would make no difference in the President's decision.

Hope Still Left.

Senator Hitchcock did not interpret the President's stand to mean that the treaty was dead, declaring he still believed a compromise reservation program could be worked out.

The preamble of the committee resolution requiring that the senate reservations must be accepted by three of the other great powers, was said by the democratic leader to be particularly objectionable to the President who regarded it, he declared, as "killing the treaty absolutely."

He indicated also that the article 10 reservation was entirely unacceptable to Mr. Wilson, but said the executive might be willing to accept some of the other proposals on the committee program.

To Call Conference.

As soon as he left the White House Senator Hitchcock began plans for a conference of democratic friends of the treaty. It was said it might be held tonight. The plan at first had been to have the mild reservation republicans in the conference, but it is understood they informed the democrats they were unwilling to negotiate until the committee program had come to a vote.

Senator Hitchcock predicted that the mild group would give the democrats enough support to uphold the vice president in ruling that further ratification resolutions are in order, thus opening the door for a compromise.

May Withdraw Treaty.

Mr. Hitchcock did not go into details as to the exact stage at which the President might intervene in the treaty proceedings but indicated that the executive might withdraw the treaty unless the democratic conference developed an agreement to vote down ratification.

If the committee resolution is defeated, however, it is expected Mr. Wilson will let the opposing groups work out what ever compromise they can and will not interfere unless he finds withdrawal necessary to prevent ratification with reservations which are unacceptable.

SOME THINGS CENSUS ENUMERATOR WILL ASK

When the census enumerator comes around to the farm shortly after January 1, next year, he will ask some questions that may sound like prying into the purely personal affairs of the farmer. Now, the farmer, like every other self-respecting man, dislikes having his private affairs peeped into and unless he thinks about this thing in advance, may have a disposition to be unresponsive if not actually resistant.

In actual fact, every question that the enumerator will ask is an essential question and has a direct bearing on the personal welfare and prosperity of the individual farmer as well as upon the advancement of the agriculture of the nation as a whole.

When the Bureau of Census decided to take the farm census in January instead of April, it did so upon the advice of the United States Department of Agriculture. The farmer is less likely to be busy in January than at the spring planting and breeding season, and his products and live stock are in better shape for statistical treatment. Also, every new question—and there are a number of them—inserted in the agricultural schedule was placed there after consultation with the department of Agriculture and for the purpose of clearing up some specific situation in which the Department of Agriculture is trying to aid the farmer.

Here are some questions that will be asked:

"Do you own all of this farm?"

"Do you rent from others part but not all of this farm?"

"Do you rent all of this farm? What do you pay as rent?"

"If you own all or part of this farm was there any mortgage, debt or other incumbrance on the land so owned on January 1, 1920."

"What was the total amount of debt or incumbrance on land on this farm owned by you January 1, 1920."

Pertinent—Not Impertinent

"What the Sam Hill, you may inquire, 'has the government got to do with how much money I owe on my land?'"

Well, two of the things to which the Department of Agriculture has been giving deepest thought during the past several years are farm tenancy and rural credits. The past three censuses have shown an increase in the number of tenants. Alarmists have felt—and said—that the country is going to the bow-wows by the landlord route. The Department of Agriculture, however, looked into the matter as well as it was able, and refused to be alarmed. Where it was able to make surveys, discovered that while the number of tenants 25 years ago was greater in 1919 than in 1900 or 1890, the number of tenants 45 years ago was considerably smaller in 1919 than in 1900 or 1890.

The inference is then tenancy is a step toward ownership, that the young fellow who becomes a tenant farmer when he marries, say, is likely to be a farm owner before his first child is grown—the farm paid for and the money that used to go to pay off the mortgage available for sending the child to college.

Now, to the Department of Agriculture, that looks like a thoroughly normal, healthy and beneficial process. To just the extent that tenancy leads to farm ownership, it is a good thing for the country for the individual.

Full Answers Essential.

But it has not been possible to get a complete, nation-wide survey of the situation. The forthcoming census offers the opportunity for doing that. If every farmer will answer the enumerator's questions fully and fairly the Department of Agriculture will have the data from which to analyze the situation accurately and to determine what things can be done to best advantage to help the tenant to become a farm owner.

One of the directions that aid may take is encouragement of rural credits—finding all of the ways possible of helping the younger farmer to get the

money that he may need to borrow. It is necessary, therefore, to know what proportion of farmers who advance from tenants to owners have borrowed money to make the change, and how much, in proportion to total value of the farms bought, they have to borrow.

The road toward ownership does not necessarily start with tenancy. A great many farm tenants were first farm hands, then tenants, then owners with a mortgage, then owners, debt free. The census will show, if the questions are answered fairly, how many years, if any, every farmer worked for wages; how many years he has been an all owner. The Department of Agriculture will have the last information it needs to help men to succeed in farm ownership.

Other Important Queries

Here are some other questions that will be asked:

"Has this farm a telephone?"

"Is water piped into the operator's house?"

"Has the operator's house gas or electric light?"

Now that looks like an effort to find out whether or not the farm family has the modern home comforts, and it is just that, but it means something more than mere inquisitiveness. Several months ago when the Bureau of Farm Management was in progress of organizing the Secretary of Agriculture, called a conference of heads of schools, social workers and others from all over the country. When the people were assembled in Washington he asked their opinion as to the most useful thing that could be done by the Office of Farm Management. For a whole day those people discussed the matter. Just before night, with a score of items on the ballot, they took a vote. The work of promoting the comfort and convenience of the farm home received an overwhelming majority of the votes.

That, then, is one of the things that the Department of Agriculture is trying to do in aid of the farm population of this country. In order to do the work intelligently, the department needs a full information as possible as to how the farm homes of the country are equipped for comfort and convenience.

Another Way to Help

Every farmer will be asked how many acres of drained land he has and how many other acres of land there are on his farm that could be made suitable for cultivation if they were tile-drained or ditched.

When these questions are asked you remember that they are asked every one of your neighbors. Possibly you have a tract of land that would be the most productive field on your farm if you could get the surplus water out of it, but you can not do it because, to be effective, the drainage ditch would have to go far beyond the borders of your own farm, would have to be a county enterprise and the county has not seen fit to do anything about it. If that be true, several of your neighbors have land that should be drained. If all of you tell the census enumerator how many acres you have that need drainage the Department of Agriculture will have the facts to show what is needed in

Scene from Cosmo Hamilton's sensational comedy, Scandal, to be presented at the opera house tomorrow night

your community. When the opportunity offers, it will be in position to do what it may to secure for you what you need.

Those things are fairly typical of the questions that will be asked in taking the agricultural census. In order to answer all of the questions intelligently, the farmer will have to think about the matter a little before the enumerator calls on him. He ought to give the enumerator the most accurate information he can. What the individual farmer tells the enumerator is likely to benefit that farmer individually, but it is certain to benefit any number of other farmers. It is not too early now to get the facts straight in your mind.

Hindenburg Rousing German Enthusiasm

By Associated Press Leased Wire

Berlin, Nov. 15, via London.—The mass meetings have been called for tomorrow by the majority socialists for the purpose of "rousing the police authorities from their sleep." It is declared an attempt is being made to use the presence of Field Marshal von Hindenburg as "a fire on which the German national soup can be brought to a boil."

Demonstrations, chiefly by students, cheered von Hindenburg and Gen. Ludendorff yesterday and raised cries of "röch" for former Emperor William and the Old Empire.

BERLINERS WANT LEAGUE.

Berlin, Nov. 15.—Demonstrations last night stormed a meeting arranged by Mathias Erzberger, vice premier and minister of finance, at which speeches favoring the league of nations were made. The meeting concluded in confusion, the audience singing imperial and national songs.

AMUSEMENTS

"BUSINESS BEFORE PLEASURE."

The farcical comedy, "Business Before Pleasure," one of the most successful shows in the history of the show business will be presented to the patrons of the opera house on Saturday night, Nov. 22nd. The story deals with two "Yiddish" partners who formerly were in the suit and cloak business and who have decided to take a high dive into the film business.

Sixty laughs a minute is the schedule so come prepared to enjoy yourself to the fullest extent and should you have a personal grudge against your mother-in-law let her stay at home because she will miss the treat of her life.

Alto and Mawruss, the two partners are scouting for a vampire—a real villain tries to thwart their plans as he wants to add her to his harem out Mawruss hands him a knockout with a ledger which makes him see the colors of the allies.

There is a Jewish sense of humor in "Business Before Pleasure" which makes you like the show from start to finish—there is something in the lines of the show which make you think.

SCANDAL.

One of the unmistakably happy events of the current theatrical season, is that of the coming to the opera house on Tuesday night of Cosmo Hamilton's eminently successful comedy of American life, "Scandal," which comes here under the direction of Walter Hast, after a most phenomenal and triumphant stay of over seven months' duration at the Garrick Theatre, Chicago.

The plot concerns the visit of Beatrice Vandervyke, daughter of the well-known New York Vandervykes, to the studio of an artist of questionable character. Beatrice has heard it said that artists possess unusually romantic natures and are adepts at the game of love-making so decides to get information concerning the species confined first hand.

Upon this occasion she is followed shortly by her fond parents, who would doubtless have created a scene had it not been for the fact that Beatrice upon the spur of the moment quickly annexes Pelham Franklin, a bachelor of intelligence and taste who resides across the hall and knowing that he is looked upon with favor by her family, announces to his intense astonishment that they have been married.

Soon after she seeks to rid herself of her newly acquired husband, who being married in name only with none of the game endeavors to teach the young woman a lesson and makes her disrobe and retire. No more of the plot development can be told here, because by doing so would rob the audience of the pleasure of the many thrilling scenes intermingled with the most delightful comedy ever written into a play.

The scenes are laid in the society colony of the Connecticut hills.

Rail Conference is Postponed for Time

By Associated Press Leased Wire

Washington, Nov. 15.—Hope for an immediate settlement of demands of the four great brotherhoods vanished today when further sessions of the conference between Director General Hines and the brotherhood heads were postponed indefinitely.

No official statement was made but it was understood no agreement could be reached on the principle of time and a half for overtime in road service of trainmen. Several minor questions also remained unsolved because they have a direct bearing on the overtime question.

The brotherhood leaders may meet with members of the Director General's staff during the early part of next week.

The Director General's recent statement that the discussions were entirely amicable was reiterated today. Union leaders held out hope for an agreement which would meet the demands of their constituents to a large extent.

THANKOFFERING MEETING—

The annual thankoffering meeting of St. Paul's Missionary society was held Thursday evening, Nov. 13th, at the home of Mrs. J. E. White. Mrs. Beier, Mrs. Lenox, Mrs. Austin Smith, and Mrs. Hannah Miller assisted Mrs. White in entertaining. The Bible lesson was conducted by Mrs. Lenox and the lesson topic, "Our Thankoffering," was developed by Mrs. Beier. Several pamphlets were also read on the subject. A report of the recent convention at Washington, Ill., was given in interesting manner by Mrs. E. H. Rickard. Mrs. Otto Beier, who was also a delegate from the Dixon society, told additional features of the convention which interested her. Three piano selections, given by Miss Cleo Deeter, gave a great deal of pleasure. A goodly thank-offering was collected. A social hour followed, with refreshments served by the hostesses. The December meeting will be held in the afternoon at the church, with a scramble supper in the evening for the families of members.

SUBLETTE WOMAN'S CLUB—

The annual meeting of the Sublette Woman's club was held on Thursday afternoon, Nov. 13, at the home of Mrs. J. J. Barton. The retiring president, Mrs. Andrew Long, was re-elected to office for the coming year. Other officers elected are as follows:
Vice President—Mrs. John Barton.
Secretary—Mrs. Frank Lett.
Treasurer—Mrs. Wm. Utch.
A very interesting paper was given by Mrs. J. A. Long on "Poetry Written by Boys in the Trenches." Tempting refreshments were served by the hostess at the close of the afternoon.

HANDKERCHIEF SHOWER—

The true Blue Class of the Methodist church taught by Mrs. Louis Meppin, gave a handkerchief shower for the Misses Mary Hintz and Ora Floto at the home of Mrs. John Krug on Thursday evening. The guests numbered twenty-two. Games were played during the evening and refreshments of an enjoyable nature served. Miss Hintz and Miss Floto leave shortly after Thanksgiving to spend the winter in California.

TO ENTERTAIN U. S. W. V.—

The Auxiliary of the U. S. W. V. will entertain all Spanish-American War Veterans in Dixon and their families on Thursday evening in G. A. R. hall. Nov. 19. The members may bring their own work.

DIXON WOMAN'S CLUB—

On Saturday, Nov. 14th, the Dixon Woman's club met at the beautiful home of Mrs. A. H. Nichols, of Galena avenue.

Mrs. Eichler, with a few opening remarks, turned the meeting over to the chairman, of the Music committee, Mrs. L. W. Newcomer.

The first number was rendered by Miss Josephine Lievan, "Birthday Song," by Tessmacher, and "Arra," by Rubenstein. Her audience would not let her go until she gave an encore, "The Rose Cup," by Stevens. All of the numbers were very sweetly given.

Mrs. Eichler gave a reading, "When Lucinda Goes to Town," and as an encore, "For People Will Talk, You Know." All enjoyed Mrs. Eichler's readings, while she is not a professional, she would cause many to wish they might do half as well. Mrs. Coppins gave a book review of "Music and Childhood," or "Music and Children." Among the many good things that she said were:

"Parents should encourage good music for their children."
"Music is moral law."
"It gives a soul to the universe, wings to the imagination."
"It is the essence of order and leads to all that is good and beautiful."

One of the questions she raised was, "shall we wait until maturity for music, or give it to the children while they are so to speak, at play?" Her paper was highly appreciated and well discussed.

Miss Josephine, daughter of Mr. and Mrs. C. D. Anderson, gave a pleasing piano solo and responded to an encore. All were delighted with Mrs. W. G. Kent's two beautiful solos, "Dawn," by Somerset and "Snowflakes" by Frederick Cowans, which ended the program.

The afternoon closed all too quickly over the teas, with Mesdames Wilbur Leake, W. C. Dysart, F. M. Pearce, and W. H. Coppins assisting Mrs. Nichols.

AT DR. MOORE HOME—

LT. EVENSON NOW ON HIS WAY HOME

Lieut. C. S. Evenson, formerly agent of the North-Western railroad here, who has been in service in Russia and Germany since the Thirteenth Engineers was released from duty, is en route home. Cards received from him by Dixon friends tell of his release from duty in Russia, and later of his being in Paris awaiting transportation assignment for the United States. In none of his letters or cards does the lieutenant state whether or not he plans to return to Dixon.

WOMAN'S ABUSE OF CHILD WAS TOO MUCH FOR ONE MOTORMAN

One of the motormen on one of the city street cars Saturday was called about all of the names that can be said in English language, according to his own confession, by a woman, a resident of this city. He stood the cussing and all of the threats but still maintains that he was in the right.

According to his version of the affair, a woman boarded the car at the end of the line in Dementtown with a small child. The woman had struck the little girl several times about the time she boarded the car, he says, and used some language which the motorman believed to be entirely uncalled for and unbecoming a mother when addressing her own child. When the car arrived down town the woman prepared to leave, the motorman says that she continued her abuse and jerked the child off the car, beating it over the head. This was more than the motorman could stand and he threatened to use violence on the woman if she continued to beat the child, who was offering no resistance whatever.

"If you strike that child in that manner again, I will knock you down," was the remark the motorman declares he made, whereupon he received one of the worst cussings it had ever been his pleasure to listen to. Yesterday the motorman went hunting and when he returned he was notified that the infuriated woman had been waiting at the Dementtown end of the line, armed with a bad looking club waiting for him.

BACK PAY MAKES R. R. MAN SO RICH HE QUIT

Stationary engineers in the Burlington railroad shops at Aurora got pleasant surprises Saturday in the form of back pay checks for amounts greater than the yearly salary received by "most white collared guys." One of the engineers, Edward Hill, felt so rich when he got his check that he quit his job and announced that he was going to Florida to spend the winter.

Hill, who looked after the engine in the power plant of the locomotive department, got a check for \$1,499.44. At the shop offices it was announced that checks for \$1,492.21 for Edward Young and \$1,292.25 for D. W. Weber were ready and would be given to them today. Young and Weber are engineers in the car department power plant. Mat Baxer, the other engineer, will get only \$150 as he has been on the job only a few months.

SANDRA THE JEALOUS

By JANE PHELPS.

ANOTHER UNHAPPY DAY CHAPTER CXXVII

Late in the afternoon I ordered the car and went for a ride. I went alone. I had noticed what I thought an eager look on Miss Pierce's face, and so out of sheer perversity I would not even take Junior and leave her free to do as she might wish for an hour or two.

I neither knew or cared where I went. I leaned and nursed my jealous thoughts. It had been always would be, Leola, that first wife. Then it had been Irma Barton. Now it was to be Martha Price. What a name for a dependent, almost a servant. I thought sneeringly—"Martha! Surely Everett's penchant for odd names was always catered to in every woman he seemed to care for at all. Leola, Irma, Sandra and Martha."

It was nearly time to dress for dinner when I returned, no happier because of my ride. I realized there was an unusual activity in the dining room, but if I gave it thought at all it occurred to me that Mrs. Gray was talking to the servants, perhaps finding fault with something. I hurried upstairs into the nursery. I played a few moments with Junior, then went into my own room to dress. That eager light was still in Martha Pierce's eyes. What could it mean? I heard her crooning over Junior as she put him to bed, and my lip curled. Was she so happy because of Everett's attentions, she must need sleep?

Right then and there I made up my mind she should go. I would say no thing to Everett. But the next day I would start looking up another nurse, of course she must be competent. But she need be neither pretty, nor young. I almost regretted letting Miss Lane go. She might have stood with us a hundred years and I shouldn't have to feel jealous of her.

In a spirit of perversity I put on the most unbecoming dress I had. When I looked at myself in the mirror a picture of Miss Pierce came before me, and I quickly took it off and, calling Hetty to my aid, I dressed as elaborately as if I were going out.

"You look lively," Hetty said when I

was ready to go down. What called them all? Hetty too had an eager look in her eyes. Suppressed excitement fairly radiated from her. Oh, well, it was because they were happy. I thought—while I was always miserable, I wasn't always miserable and I knew it. But I was in one of my moods of self pity, in which I could see nothing but the dark outside of the clouds, and had no wish to see the silver lining which is always to be found if we look for it.

I heard Everett come in. Why didn't he come up stairs? I crept to the nursery door and listened. Had Miss Pierce gone down, and were they again talking confidentially?

I heard her moving about the nursery and returned to my room slightly relieved. Then after a few moments Everett came up the stairs whistling gaily.

"Why all this elegance?" he asked as he kissed me with unusual tenderness. "Oh, I felt like dressing up, that's all." I answered ungraciously. We always dressed for dinner, but unless we were going out I seldom put on my very best dinner clothes as I had done that night.

"You look very charming, but—not very happy. Anything gone wrong?"

"No—nothing."

"Then I'll run in and say goodnight to Junior, and get into my togs. Mrs. Gray said dinner was nearly ready."

I started to follow him into the nursery. Then I halted. No I would let them be together. If he wanted to make love to her I couldn't stop him by going in, and I might hear something if I listened.

He left the nursery door open. He played just a moment with Junior, then I distinctly heard him say: "You did as I asked you to?"

"Yes. Everything is all ready."

He made no reply but his face was beaming when he came back. He hurried to dress, and I did not speak to him as he passed. I answered a question, until Hetty announced dinner, that eager look still on her face.

Mexico Only Asked Contracts Settled

By Associated Press Leased Wire

Mexico City, Sunday, Nov. 16.—(Denial) Gen. Candido Aguilar, Mexican foreign minister went to Europe to negotiate new contracts for munitions is made by Juan Barragan, chief of staff for President Carranza. The statement says his errand was to arrange with factories in Belgium and Spain either for shipment of arms and ammunition or the return of money paid as initial payments on contracts entered into during the Diaz and Huerta regimes.

The old contracts, adds the statement, called for arms and munitions, now greatly advanced in price and the Mexican government, it says, merely wished to come to an understanding regarding the fulfillment or non-fulfillment of these old contracts.

PRINCE LIKES AMERICA.

By Associated Press Leased Wire

White Sulphur Spring, W. Va., Nov. 17.—The Prince of Wales began the last day of his stay here today with a brisk run around the half mile athletic track, and then took a plunge in the swimming pool. After breakfast, the prince went to the golf links.

More than once since his arrival here the prince has expressed regret that he was unable to spend more time in the United States. He expressed the hope today that it would not be long before he could pay.

According to the present arrangement, the prince's special train will leave White Sulphur at 9 o'clock and will reach New York about 11 o'clock tomorrow morning.

WAS THIS PLEDGE MADE?

That Attorney General Palmer and
the administration are guilty of break-
ing a solemn pledge to labor is the
charge of the executive council of the
American Federation of Labor, concern-
ing the administration's dealing with
the coal strikers. The executive coun-
cil says that Attorney General Palmer
in his statement ignored the assertion
made by the executive council that a
pledge had been made by government
officials and members of congress that
the Lever act was never intended to
apply to the activities of wage earners
engaged in any strike or lockout rela-
tive to wages, hours and condition of
employment, and that the Lever act
would not be applied by the govern-
ment to wage earners engaged in such
activities.

It would be interesting to know, if
such a pledge was made by members
of the administration and by congress-
men, by what authority it was made.
Such a pledge, if made, was in direct
contravention of the rights of the peo-
ple as a whole, as the fact of the strike
and of the threat that it constituted
against the whole people, most fully
demonstrated. Such a pledge would
show that those making it saw fit to
interpret the Lever act as class legis-
lation of the most dangerous kind. No
such law should be made to exempt any
class or body of our people from its op-
eration. If such pledge was made by
the democratic administration, it put
that administration in a hole, the only
escape from which was to break it. When
it was made, it may have been consid-
ered good political capital. And finally,
when the miners sought to take
advantage of it, the capital was on the
side of breaking it.

American anarchists do not think
well of the suggestion of setting aside
one of the Philippine islands for them.
Nothing this side of hell is alluring to
a Red-Tolstoid Blade.
Well, why not set aside hell for
them?

6,000 Men Mix in Steel Strike Riot

Youngstown, O., Nov. 17.—Minor
clashes between striking steel workers
and mill workers took place this morn-
ing. It is estimated 6000 men filled the
streets near the mill gates. A number
of the men were injured, and three were
removed to a hospital.

RESUME OPERATIONS

By Associated Press Leased Wire
Pittsburgh, Pa., Nov. 17.—Operations
were resumed today at the Mingo Junc-
tion plant of the Carnegie Steel Co.
There was a shortage of foreign labor-
ers, but the company said the plant
would be operated with the men who
had reported.

The Mingo mills were closed by the
steel strike Sept. 22, and no effort to
ward resumption was made until today.

Posse Combs Timber for Fugitive I. W. W.

By Associated Press Leased Wire
Centralia, Wash., D. C., Nov. 17.—
Former soldiers and woodsmen who are
searching the timber country at the
head of Hannaford valley for alleged In-
dustrial Workers of the World charged
with participating in the shooting here
last Tuesday in which 4 American Le-
gion members were killed are not ex-
pected to report until tonight.
The posse was reported to be seeking
the cabin in which it was said indus-
trial workers had taken refuge after
having shot and killed John Haney Sat-
urday.

SOCIALISTS GET SETBACK THRU FRENCH VOTERS

Returns From Sunday
Elections Show Ex-
tremists Lost.

By Associated Press Leased Wire
Paris, Nov. 17.—Returns from Sun-
day's elections for the Chamber of De-
puties thus far received show the con-
servatives, nationalists, and moderates
far in the lead, these parties winning
191 seats in the 206 constituencies for
which complete figures have been re-
ceived.

The extreme socialists received a se-
vere setback throughout the country
and in general the socialists suffered
the defeat of many of their leaders.
Pierre Renaudel, leader of the majority
socialists; Jean Longuet, leader of the
minority socialists; Henry Franklin-
Bouillon, the radical socialist chairman
of the foreign relations committee of
the chamber of deputies, who has urged
rejection of the peace treaty, and Pierre
Brizon, were beaten. The returns show
a gain of 46 seats for the moderates
and a loss of 16 for the extremists.

General Edouard De Castelnau and
General L. E. DeMauid Huy, military
governor of Metz, were elected, but
General M. P. E. Sarraill and General
Pierre Rogues were defeated. Aristide
Briand and Rene Viviani, both former
premiers were returned but professor
Paul Painleve, also a former prime
minister was defeated.

Paul Meunier, the radical republican
deputy who was recently arrested,
charged with having had intelligence
with the enemy, received only 2,500
votes in the Aube Constituency, being
distanced by the other lists. Albert P.
Lebrun, former minister of blockade
and the invaded regions, who was dis-
missed from his post by Premier Clem-
enceau because his name appeared on
the list with that of Deputy Louis Mar-
tin, who cast his vote against the peace
treaty in the chamber of deputies dur-
ing the balloting on ratification, was
elected, as was Martin.

Clemenceau Aid Wins.

The list of Georges Mandel, Premier
Clemenceau's chief confidential secre-
tary whose assassination was attempt-
ed at Bordeaux early in the morning of
Nov. 13 at the conclusion of a public
meeting, was first in the Bordeaux dis-
trict. The whole list was elected. Cap-
tain Andre Tardieu, the present minis-
ter of blockade and the invaded regions,
was victorious over Franklin Bouillon
in Seine-et-Oise.

To Contest Election.

The socialists have served notice that
they will contest the result in the sec-
ond Paris district. The French law
holds that the names of candidates
shall not be followed by any phrase in-
jurious to opposing candidates. After
the name of Col. Baudier, the national
list candidate, there appeared on the
lists, the words:

"The Denunciator of Malvy." The
socialists hold that this was injurious
to Col. Baudier's opponents and comes
within the ban of the law. They will
demand that Baudier's election be an-
nulled.

Definite returns from Algiers, Con-
stantine and Oran, the three depart-
ments into which Algeria is divided,
were received in Paris among the first
figures and were ahead of the suburban

elected in the Pyrenees.

PRESIDENT OUT DOORS.

Washington, Nov. 17.—President Wil-
son was taken down stairs in a wheel
chair today and rolled out on the White

had left the White House since his re-
turn from the western tour during
which he was taken ill.

PEACE WITH THE BRITISH NATION BOLSHEVIKI AIM

Soviet Forces Insist
They Captured City
of Omsk.

By Associated Press Leased Wire
London, Nov. 17.—The capture of
Omsk by Russian soviet forces, unoffi-
cially denied in advices through Scandi-
navia yesterday, is reasserted in a bol-
shevik communique received by wireless
from Moscow today. Severe street
fighting preceded the capture and more
than 1000 prisoners were taken by the
bolsheviks, it is declared.

The Kolchak forces retreated east-
ward in disorder, says the statement,
which also claims the capture of Yan-
ovsky from the all-Russian troops.

In the Baltic region, it is announced,
after the capture of Yamburg the bol-
sheviks continue to advance and are
pursuing Gen. Yudenitch's troops.

REDS WANT PEACE

By Associated Press Leased Wire
London, Nov. 17.—In a diplomatic
circular here the view is held that it is
evident the bolsheviks are entering the
negotiations at Dorpat regarding the ex-
change of prisoners with every inten-
tion of endeavoring to open peace por-
tals with Great Britain. The make-
up of the delegation accompanying M.
Litvinoff, former soviet ambassador to
Great Britain, who heads the mission, is
considered significant, as also is the fact
that numerous telegrams have been re-
ceived from the bolshevik government
expressing the deepest appreciation of
the arrangements made for the confer-
ence, the messages being couched in the
most conciliatory terms.

James O'Grady, labor member of the
house of commons, who is representing
Great Britain, has definite instructions
not to enter into any parleys except
with relation to prisoners.

A Dorpat dispatch Sunday night said
the Litvinoff delegation might go from
Dorpat to Copenhagen to discuss an ex-
change of prisoners and other questions
with entente representatives.

The charge preferred was "plotting in
behalf of the Hohenzollerns."

CZECHS QUIT SIBERIA

By Associated Press Leased Wire
Prague, Saturday, Nov. 15.—The ar-
rangements for the withdrawal of the
Czech-Slovak troops from Siberia were
announced by the Foreign Minister
Benes at a meeting of party leaders
here. The government's chief care at
present was the speedy withdrawal of
these troops, M. Benes said, and Gen.
Janin, their commander, had given his
complete approval to the project.

Four Japanese transports had been
chartered and the United States had al-
lowed the Czech-Slovaks to make use
of ten large ships stationed in Chinese
waters and also had placed funds at
their disposal, the foreign minister stat-
ed.

The Czech-Slovak government, M.
Benes added, manifesting its readiness
to comply with the wishes of the allied
powers, had decided not to meddle with
the Russian question and was doing ev-
erything in its power to withdraw Uni-
ted States troops in as short a time as
possible.

Reports from Siberia recently had
stated that in view of the Kolchak re-
verses the Czech-Slovak authorities
had been asked to postpone the with-
drawal of the Czech-Slovak troops.

HOGS GOT THEIR GAME

Friends of Dr. McGraham, Howard
Byers and A. M. Rawls are having con-
siderable fun at their expense today over
the disappearance of their fine haul
of eighteen rabbits, their total Sunday's
hunt. According to the story the men
had dressed the rabbits and had placed
them on the running board of their au-
to, which stood in a farmer's yard, and
when they returned to the machine to
start home they found that the hogs
had been there in the meantime and had
made quick disposition of the game.

PIGEONHOLE FOR TREATY, WILSON TELLS SENATORS

(Continued from page one.)

One of the subjects understood to
have been discussed at the White House
conference was the substitute reserva-
tions proposed by Senator Hitchcock.
The democratic leader indicated that
the President had made no objection to
them.

Would Declare War Ended.

Mr. ... said he did not discuss
with the President the proposal of re-
publican leaders to pass a resolution in
case the treaty fails, declaring the war
at an end. It is well understood, how-
ever, that the administration generally
would look with disfavor at such a
moving a peace status.

Immediately after convening today
the senate plunged into consideration
of the two pending reservations. Sen-
ator Poindexter, republican, Washing-
ton asked for brief time to discuss anti-
radical legislation, but Senator LaFol-
lette, republican, Wisconsin, insisted
that the treaty had right-of-way and
was sustained.

Only two hours out of the 96 hour
maximum under the cloture rule had
been consumed when debate began to-
day. The reservation declaring the
United States declines to accept any in-
terest in or responsibility for the Ger-
man overseas possessions was opposed
by Senators Townsend, Michigan, and
New Indiana, republicans. Senator New
said the United States might secure val-
uable interests in the Pacific Island pos-
sessions of Germany.

Supporting the reservation, Senator
Shields, democrat, Tennessee, said the
secret treaty between Japan, Great
Britain and France had given the Pa-
cific Island possessions to Japan with-
out the reservation, and that conse-
quently the United States would be
come merely a trustee for Japan.

W. WILL REJECT TREATY?

By Associated Press Leased Wire
Washington, Nov. 17.—With final roll
call on ratification of the peace treaty
imminent, the outcome hinged today up-
on eleven-hour efforts to bring a com-
promise between the administration
forces and the mild reservationists on
the republican side of the senate.

Unless such a compromise could be
reached, it was predicted in all quarters
that the treaty would be rejected.

Democratic Leader Hitchcock arrang-
ed to call at the White House before the
senate met to lay before President Wil-
son his latest information on the senate
situation and to inquire what reserva-
tions the president would be willing to
accept as part of the ratification.

Some of the majority program al-
ready adopted by the senate, the Presi-
dent has declared he would regard as
deactivating the treaty, and unless some-
thing develops to change their views his
supporters in the senate intend to vote
against ratification with these qualifica-
tions included.

The situation also was beclouded by a
parliamentary disagreement. Vice
President Marshall and the democratic
leaders holding that a less drastic ratifi-
cation resolution can be voted on after
one has been declared, and the republi-
cans declared they have the majority to
override any such effort.

Two of the committee reservations re-
mained to be acted upon at the begin-
ning of today's session. They related to
the German colonies and to certain vi-
tal interests of the United States which
would be excluded from league action.
Many reservations by individual sen-
ators are to be considered after comple-
tion of the committee program but with
cloture in effect it was thought a final
vote would not be long delayed.

DIXON SCORED EASY VICTORY IN CONTEST WITH PRINCETON HIGH

Visitors Too Light for Vazina's Men; Score Was 27 to 0.

Dixon High School won an easy victory over Princeton High on the local field at football Saturday, score 27 to 0. Coach Vazina's men outplayed the visitors at every point and the contest was so one-sided that Dixon was not pushed sufficiently to extend itself.

The Princeton team was very light compared to the Dixon lads. They could not get through the local line and though they displayed some speed, the field was heavy and retarded action. Princeton's only gains were accomplished on trick plays and Dixon fumbles. The visitors played a clean, stubborn game and against men of their weight would show up well.

Touchdowns were made by Bremer, Wagoner, Allen and Heinze. Allen kicked three goals successfully, missing one.

NOTES OF THE GAME.
Princeton tried hard to put a forward pass, their only hope for a touchdown, but failed to connect. Dixon was equal to out of luck on the aerial football and could not complete a pass. Dixon intercepted one of the Princeton passes in neat shape and scored a good gain on it.

Heinze, Bremer, Wagoner and Allen were all good ground gainers. Wagoner, the new backfield man, is a recent acquisition to Dixon High and has proved a great strengthener to the backfield.

The only time Dixon's goal was in real danger was when Princeton was forced to kick and then recovered the ball near Dixon's twenty yard line on a fumble. The locals held the visitors for downs, however.

Coach Vazina put in several substitutes during the last half and Slothower, Manning and Senneff had their part in the big victory. Jones injured his leg in the last quarter, and was given a rest, although his injury has not proved serious. Manning and Slothower gave good service as substitute ends and Senneff also played a good game.

Dixon backfield played a whirlwind game all the way through Saturday. They smashed through the Princeton line at will and marched down the field for a touchdown without a halt several times. Dixon's line was impregnable against the Princeton plungers.

A fair sized crowd saw the exhibition. Dixon has no game scheduled yet for next Saturday, but will work hard between now and Thanksgiving for the final contest with Sterling High. The Sterling game will be the hardest game of the season.

STERLING IS COMING TURKEY DAY GAME

Now for the Turkey Day game! That's the slogan of the Dixon High school football team and the students of the local institutions, for on Thanksgiving Day the second game of the season with Sterling High is to be played here, and the locals are counting most hopefully on "cleaning up" on their rivals from Whiteside county. To this end the students are planning to make it the great day of the year and efforts will be made to get a crowd out to relieve the financial handicap under which the athletic association has been working all season.

That the hopes for another Dixon triumph are not ill-founded is demonstrated by the "dope." In their first meeting this season, Dixon was victorious by a 14 to 0 score. Further basis for comparison of the strength of the teams is given by the games the two teams have played against Mendota High school. A week ago Saturday Dixon was beaten 3 to 0 by the LaSalle county organization, while Saturday Mendota trimmed Sterling 44 to 0.

DIXON INDEPENDENTS BEATEN AT CLINTON

The Dixon Independents were shown some real football playing at Clinton yesterday afternoon when the Clinton Athletic club team of that city trimmed the locals by a score of 60 to 0. The locals were outplayed from the start and the Clintonites also had the best of argument when it came to weight.

In the first minute after the whistle had blown and the teams had lined up for the game, Clinton scored a touchdown. They continued in their shifting and stacked up a safe margin of 60 points with ease.

The Independents expect to go to Prophetstown next Sunday for a game and there is also some talk of signing a date with the Dixon High school for a game here next Saturday afternoon.

STERLING BEATS MORRISON

Sterling's independent football team, composed of ex-service men, defeated the Morrison Independents 14 to 3 at Sterling Sunday afternoon before a big crowd. Independent football is becoming very popular in the West at the west terminal of the interurban line.

ROCHELLE HIGH WON GAME FROM GENEVA

The Rochelle Community High school football team won from Geneva High school 7 to 0 in the game on the new high school site at Rochelle Saturday. Geneva opened with the forward pass and to the last period was able to gain by long passes, but defense work in intercepting held the visitors from scoring. Rochelle broke the line in the first quarter and C. Countryman, captain and quarterback carried the ball over. Boken booted the ball exactly over for an additional point. The same team won from the Alumni 12-7 Armistice Day. Poffinberger, of Dixon refereed Saturday's game.

Western League in Big Meeting Today

By Associated Press Leased Wire
Chicago, Nov. 17.—Club owners of the Western League met here today in annual session to consider the question of a circuit for the 1920 season, elect officers and to settle the affairs of the season just closed. President Tearney also said the schedule for next season also would be discussed, although its adoption will be deferred until a later meeting. The 1919 season was one of the most prosperous in the history of the league, President Tearney said.

High School Player's Neck Broken; Will Die

Galesburg, Ill., Nov. 16.—Tonight doctors gave up hope for Harry Williams, Galesburg high school football player, whose neck was broken in a game with the Peoria Normal team yesterday, and say death will ensue in a few hours, paralysis having set in. Deets, another Galesburg player, has a broken collar bone. White, an injured Peoria player, returned home today.

Springfield, Ill., Nov. 15.—A. D. Burbank, former legislative chairman for railroad brotherhoods in Illinois, took his life by drowning here early today.

No motive could be assigned by his family except that he had been ill health. The body was found in a park reservoir after it was discovered that Mr. Burbank had left his bed some time in the course of the early morning.

Until recently Mr. Burbank had served as superintendent of the Springfield Branch of the Illinois Free Employment Bureau.

He resigned to go into business.

Farm Expert Helps Solve Acute Rural Problems

H. C. Wallace

H. C. Wallace, of Des Moines, Ia., expert on farm problems and publisher of several influential agricultural papers, is a member of the "Commission on Occupation of the Field," which will make its report at the Fortieth International Convention of the Y. M. C. A. at Detroit, Mich., November 19 to 23.

The commission, headed by Lewis A. Crosscut, of Boston, and Cyrus H. McCormick, of Chicago, has made a careful study of the possibilities of broadening the scope of the Y. M. C. A. Problems arising from rural conditions today and the extension of activities into new territory will be reported on, as well as the development of the Y in country work.

Those attending the conference included W. G. Lee of the trainmen; Timothy Shea of the firemen and engineers; Warren S. Stone of the engineers; and L. E. Shepard of the conductors.

Director General Hines has offered overtime payment in an unusual way, and the offer requires consideration for that reason, Mr. Lee said.

Railroaders receive a day's pay for each 100 miles they make within 8 hours. Most of them complete their runs in that time while those completing their runs in less time receive full eight hours pay.

Where more than eight hours are consumed railroaders have only been paid at the regular rate for eight hours and Mr. Hines' view is that this should be adjusted in fairness to slow freight men, Mr. Lee declared.

Life Not Merely Lapse of Years.
The mere lapse of years is not life. To eat and drink and sleep; to be exposed to the darkness and the light; to pass round in the mill of habit; and turn the wheel of wealth; to make reason our bookkeeper and turn thought into an implement of trade—this is not life. In all this, but a poor fraction of the consciousness of humanity is awakened; and the sanctities still slumber which make it most worth while to be.—James Martineau.

It is said that the post office in Philadelphia will lose \$15,000 a day as the result of going from the three-cent back to the two-cent rate for letters.

That happens to be exactly the sum which Benjamin Franklin was able to turn over to Great Britain in annual revenues from the post offices in the colonies in 1774, after he had put in four years of hard work in creating a postal system.

SAYS U. S. CONSUL AIDED BANDIT IN OWN KIDNAPPING

By Associated Press Leased Wire
Mexico City Sunday, Nov. 16.—Despatches from Puebla today assert that William O. Jenkins, American consular agent at Pella, although technically under arrest charged with false statements in connection with his recent abduction by the bandit leader, Federico Cordova, by order of the state's attorney, is given freedom of the city with no bail required. The officers accepted his word he would not leave Puebla until court proceedings are completed.

Jenkins, following his arrest, requested to be lodged in jail until the matter was finally settled but the officials refused. It is expected a preliminary hearing will take place Monday.

I. W. W. Bids for Coal Miners to Join Them

By Associated Press Leased Wire
Morgantown, W. Va., Nov. 17.—Miners in the northern counties of West Virginia were urged to join the I. W. W. because it is the "only revolutionary organization that is not backed by the capitalist class." They were asked to pay an initiation fee of \$2 and monthly dues of 50 cents, but if they desired they could transfer their membership from the "local" to any other "local" by simply getting in touch with the I. W. W. delegate in the camp where they might happen to be.

This interesting information was found in the mass of I. W. W. literature seized by agents of the Department of Justice when they raided headquarters of the I. W. W.'s on Scot's Run car here and captured a dozen of the leaders last Saturday.

Hines Offers Increase to Slow Freight Crews

Cleveland, Nov. 17.—Heads of the four railroad brotherhoods met here today to consider Director General Hines' offer of overtime payment on slow freight service. They hope to be able to give an answer within a week.

Black I. W. W. Lynched in Missouri By Mob

By Associated Press Leased Wire
Moberly, Mo., Nov. 17.—Quiet prevailed today following the lynching here yesterday of a negro, one of the four alleged I. W. W.'s who were under arrest charged with assault and robbery.

In the excitement incident to the lynching, the other three escaped. Two were recaptured, and police today expressed the belief the third was drowned in a lake in the park where the lynching took place. The lake is being dragged in an attempt to find the body.

Police refused to reveal where the two are incarcerated, and searching parties visited jails in adjacent counties to locate the negroes with a view to hanging them. Police also refused to give the names of the negroes under arrest, or of the one dead.

The lynching occurred early yesterday after a mob of about 100 masked men spirited the quartet from the Macdon county jail, after overpowering the sheriff.

The negroes were brought here clad only in night clothing. The mob attempted to hang the negro to a tree but the limb broke and he was shot to death as he attempted to run.

The negroes were arrested Thursday on charges of having assaulted and robbed Edward Thompson, a farmer.

To Tell

DOCTOR THEODORE ROOSEVELT

Washington — "There died recently a certain eminent American whom few people knew—Dr. Theodore Roosevelt."

"The reason they did not was because Roosevelt, statesman; and Roosevelt, author, overshadowed Roosevelt, L.L.D., D. C. L. and Ph. D."

"All of which is something of a pity, for Roosevelt, the zoologist, is entitled to eminence in his own right; moreover, it was this Roosevelt who displayed some extremely lovable characteristics, not usually considered in the popular conception of Roosevelt, the Man."

With this introduction the National Geographic Society prefaces a bulletin in connection with the Roosevelt Memorial Week, calling attention to Col. Roosevelt's attainments as a naturalist and to his extremely modest regard for his own achievements in that field.

Both upon his return from his African expedition and from his explorations in South America Col. Roosevelt made his first reports upon his finds to the National Geographic Society in the form of lectures to its members.

These lectures are preserved in the archives of the Society and, while the scientific work accomplished has been widely published and discussed, the former President's account of the incidents of these famous trips, and his concern that his associates should have proper credit, helps form a fuller estimate of the great man the country now is honoring.

Therefore the bulletin quotes from the lecture he gave concerning the African hunting expedition as follows: "I had always wished to have the chance of speaking first under the auspices of this Society when I came back from the other side to give an account of my stewardship."

"My going to Africa as the head of a scientific expedition was first suggested to me by Dr. C. Hart Merriam. I then got into communication with one or two gentlemen connected with the scientific work here in Washington and they communicated with the Secretary of the Smithsonian, Mr. Walcott, who was then away from Washington. It was under Mr. Walcott with Mr. Walcott as my superior officer, that I made my trip in Africa."

"The success of the trip from a scientific standpoint depended upon the character of the scientific men we had with us. It would be quite impossible to overstate the value of the service rendered by Dr. Merriam, Mr. Heller and Mr. Long. I doubt whether three men better equipped for their work and more zealous in doing their work ever went on such an expedition, and the labor fell entirely on them."

"Really, I would be ashamed of myself sometimes, for I felt as if I had all the fun, I would kill the rhinoceros or whatever it was, and then they would go out and do the solid, hard work of preparing it. They would spend a day or two preserving the specimens, while I would go and get something else. At times I felt that it was a most unequal division of labor—that I was having the enjoyment, while the work of bringing practical results was being done by them, and it was being done by them not merely faithfully, but as a labor of love. They did it so well because they would rather have done it than to have done anything else at all; they would rather have had that opportunity than to have had any other opportunity that the world that you gave, and naturally there was a particular pleasure in working with men who approached their work in such a spirit."

"I should also, in fairness, mention another member of the Roosevelt family—my son, Kermit, who did some excellent photographic work. Indeed, all the members of the expedition except myself did good photographic work. Among the photographs we brought back there was the best photograph of wild elephants that have ever been taken and the only photograph of living white rhinoceros that have ever been taken."

"I, of course, felt that I was bound to make a success of the trip, because in a certain sense my companions and myself were representing the United States. I think I can say that no other expedition of the kind has ever come back from Africa or Asia with a better collection of specimens than we brought back, the collection being especially good in the large game animals. The series of skins, and in many cases of skeletons, of the square-headed rhinoceros, reticulated giraffe, giant eland, bongo, northern sable antelope, white-withered lechwe antelope and Vaughan's kudu, for instance, are unrivaled in any European museum. We brought back 11 rhinos, all told, some 14,000 specimens of mammals, birds, reptiles, fishes, etc."

"Let me repeat, that I cannot overemphasize the part my companions played in the expedition. The chief value of the expedition came not from what I shot, but from what the naturalists, under the direction of Mr. Walcott, who were with me, did in preserving and collecting specimens. It is not a very hard thing to go off into the wilderness

and kill an elephant or a white rhino, or a reticulated giraffe, or giant eland; but it is a very hard thing to get good photographs of them and a still harder thing to cure and transport the skins and skulls of a number of such specimens. I can give you, perhaps, an idea of the amount of work done when I mention that we used on the trip ten tons of salt (all at times carried by native porters) in order to cure the skins; that when we killed elephants, for instance, we would have to use 20 men to carry each elephant's skull."

"There were no real hardships connected with the trip. There is, of course, a mild amount of danger in chasing the wild beasts, and there is a good deal more danger from disease, but we were fortunate enough not to lose a single white man on the expedition. We had casualties to two of our native attendants from wild beasts. One man was mauled by a leopard and one man was tossed by a rhino. A very few died from dysentery and fever, because it is almost impossible to make them take care of themselves. They live a perfectly grasshopper life, with no capacity to think of the future."

"For instance, when I was off by myself, with a small safari of from 30 to 40 porters, if there was a rain threatening and we had a long march, I would have to threaten personal violence, and sometimes resort to it, in order to make the porters put up shelters for themselves before the rain came. I had to watch over them just exactly as if they were so many children. I was glad to do it, and our personal followers took the utmost care of us in return and usually showed a desire to look after our welfare that was really touching."

"I have never passed a more interesting eleven months than I passed in Africa. From the standpoint of the man interested in geography, in geology, in natural history, in ethnology, I do not know how any one could put in his time to a greater advantage than in this trip of that nature. I think that I can say that we did our work in such a manner as not to cast discredit upon the American nation, and I am extremely pleased that I should have had the chance to make my first speech on the subject under the auspices of this Society this evening."

Col. Roosevelt manifested a keen interest in the work of the National Geographic Society in many ways. He was an honorary member of the Society, and he frequently expressed high approval of its endeavor to make geography intelligible and attractive to the public.

The high esteem in which the statesman held scientific achievement was indicated by a letter he wrote to George Shiras, 3rd, commenting upon an article on "Photographing Wild Game With Flashlight and Camera." Mr. Shiras had contributed to the National Geographic Magazine. Col. Roosevelt wrote:

"I have just been looking through your photographs in the National Geographic Magazine. Now, my dear sir, no work you can do does even come to Congress as important as for you to write a big book—a book of bulk as well as worth—in which you shall embody your pictures and the results of all your invaluable notes upon the habits, not only of game but of numerous wild creatures that you have observed."

It was Col. Roosevelt who presented the medal of the National Geographic Society to Rear Admiral Robert E. Peary, in recognition of his discovery of the North Pole.

Among the notable contributions of Col. Roosevelt to the National Geographic Magazine was an article on "How Old is Man?" which attracted wide attention. The last book review he wrote for the Outlook was a review of a volume on "Wild Animals of North America," published by members of the National Geographic Society.

PAW PAW

The young people of the Methodist and Presbyterian congregations have united to form a Union Young People's society. The Baptist young people did not join as there was enough in their own organization to continue it. The following officers were elected for the union society:

President—Miss Johnson.
Vice President—George Kercher.
Secretary—Miss McNamee.
Treasurer—Supt. Graham.
Pianist—Miss Allen.
Assistant Pianist—Miss Helen Hall.
The meetings are held at 6:15 each Sunday evening.

There have recently been made two changes in places of business along the street. Robert Wheeler has purchased an interest in the Edward Fleming clothing store where he has worked

for some time. The new building is a fine one and will be a great asset to the community.

You furnish the lot, and some money, and we'll loan you the balance to build a nice bungalow.

Our terms are just like rent, only there's a come-back on every payment. Ask anybody who has been there—he knows.

We also furnish from one-half to two-thirds of the necessary funds to buy homes already built.

Come in and talk it over with the Secretary.

hon. of the Presbyterian church. The wedding was a quiet affair, taking place at the home of the bride's mother in the presence of the immediate relatives. The bride is an estimable young lady of our town who has the qualities to make a good wife and homemaker. She was a graduate of our high school in 1917 and for some time was a telephone operator here. Mr. Fritz is an industrious young man of good habits, who is bound to make a success of his endeavors. That they meet with naught but good fortune is the wish of their many friends. They will make their home here, starting housekeeping at once in the Pierce house in the south-east part of town.

Would Teach Dangers Alcohol and Tobacco
By Associated Press Leased Wire
St. Louis, Mo., Nov. 15.—An intensive worldwide campaign to teach "the bad effects on health of alcohol and tobacco" was advocated at the "victory convention" of the national Women's Christian Temperance Union, which opened here today.

Speakers denied prohibition was responsible for the labor unrest, and emphasized it was due to that prevalent strikes virtually were devoid of violence.

Mrs. Anna A. Gordon, of Evanston, Ill., president of the organization, in an address referred to the prohibition amendment "as a new declaration of independence."

A saloonless nation needs plenty of drinking water fountains, she asserted, and urged the women to donate "bubblers" to municipalities and towns.

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe those hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

BLUE ASKS NATION TO AID FIGHT ON WHITE PLAGUE

By Associated Press Leased Wire
Washington, D. C., Nov. 15.—Schools, churches and synagogues throughout the United States were asked today by Surgeon General Blue to co-operate with the public health service in the sale of Red Cross Christmas seals on Dec. 5, 6 and 7.

The proclamation said: Over 150,000 Americans die annually from tuberculosis; an appalling waste of life when we consider that tuberculosis is classed as a preventable disease. Moreover, because this loss of life takes its toll almost entirely from the ranks of the young adult population, health authorities the world over have come to consider the control of tuberculosis as still the most pressing problem confronting them.

RAISE MINISTERS' PAY

By Associated Press Leased Wire
New York, Nov. 15.—An average increase of 49 per cent in the salaries of Methodist ministers throughout the country to meet the mounting cost of living and establishment of "minimum salaries" were announced today by the centenary conservation committee of the Methodist Episcopal church here.

The new scale of pay will be in effect generally by Jan. 1, it was stated.

The average salary of a Methodist minister was \$1,111 in 1918. The new average will be approximately \$1,650.

YOUNGSTERS CAUSE THRILL
By Associated Press Leased Wire
McAllen, Tex., Nov. 14.—Heavily armed posse hunted the brush a mile west of here several hours late yesterday after two leaden balls had crashed through the window of a passenger coach as the train neared the city. Visions of Mexican bandits faded when two small boys, armed with large "pea shooters" confessed making the "attack."

Nervous Finish in Corn Market Today

By Associated Press Leased Wire
Chicago, Nov. 17.—Corn prices took an upward swing today after showing considerable weakness at the start. Initial declines were due to excellent weather for the crop movement. On the downturn in values, however, gossip became current that country offerings to arrive had been sharply curtailed. Then shorts covered freely, and a quick advance ensued. Opening prices, which ranged from the same as Saturday's finish to 1c lower; with December 1.26 1/2 to 1.27 1/2 and May 1.22 1/2 to 1.23 1/2 were followed by material gains all around.

Oats were ruled by the fluctuations in the corn market. After opening unchanged 1/2c lower, including May 1.22 1/2 to 1.23 1/2 the market scored a moderate advance.

Higher quotations on hogs gave firmness to provisions. Volume of trade though was lacking.

Car scarcity complaints hindered efforts to check the advance of prices and so too did fear that coal shortage would restrict the movement of corn. The market closed nervous, 1 1/2c to 2 1/2c net higher, with December 1.30 1/2 to 1.30 3/4 and May 1.24 1/2 to 1.25.

The Braganza Diamond.

The Braganza diamond is a great mystery. Very few people have ever been allowed the privilege of looking at it, and of these few some are of the opinion it is not a diamond at all, but merely a wonderful specimen of white topaz. At any rate, it is generally conceded to be a diamond and is considered the jewel supreme of the crown jewels of the late reigning house of Portugal, the ancestral family of the duke of Braganza.

PERSONALS

Mrs. George H. Squires has returned from a few days' stay in Chicago.

J. W. Banks is in Long Beach, Calif. He is occupying the Sea Gull apartments.

Just received a sample line of beautiful engraved Christmas cards. If you wish any, make your selection now as it takes several weeks to get these orders filled. Job Dept., Evening Telegraph.

Miss Lewis, R. N., has gone to Holcomb to take care of Mr. Sheaf, a brother of Mrs. Elmer Countryman.

Laissez-Faire.

Laissez-faire means letting alone; a general noninterference with individual freedom of action; the let-alone principle of policy of the government and political economy. The term was first used in France to designate the principle of political economy which would leave industry and trade absolutely free from taxation and restriction by government except so far as required by public peace and order. It has since been extended to include noninterference with any guiltless exercise of the individual will.

Only One.

A little girl had a twin brother and sister. Now, she was used to the cat having kittens and only one of the kitten family being kept. So when her father brought the twins down to show her she gazed at them earnestly for a small space of time, then said, "Daddy, I think we'd better keep that one!" Pointing, as she thought, to the prettier one!

To Remove Ink Stains.

Ink stains on white fabrics can be removed with peroxide of hydrogen. Drop it on the stain with a medicine dropper or, if it is a large spot, pour it on slowly from a spoon. As this preparation has a bleaching effect, great care must be exercised if used on colored materials.

EMPIRE MECHANICAL MILKER

THIS CUT SHOWS TWO-COW UNIT & ONE-COW UNITS SUPPLIED IF PREFERRED

Only one pipe line needed. Pipe line easily run wherever convenient along cow stalls.

Operated by small, simple, quiet, light running vacuum pump driven by any suitable power. No compressed air used. Pulsating action relieves and massages teats. No air, dust or odors come in contact with milk. Milk does not pass through pulsator.

One man, using two-cow unit, milks 20 to 30 cows per hour, at the same time stripping and carrying milk.

One man, using two or three one-cow units, can milk 20 to 30 cows per hour, at the same time stripping and carrying milk.

All metal parts, special non-corrosive nickel, the same color and composition all through. Teat cups universal—fit all teats.

All parts interchangeable, accessible, easily cleaned and thoroughly sanitary. Every EMPIRE Milker FULLY GUARANTEED by the EMPIRE Cream Separator Company.

Not an experiment. The Empire has been used successfully around Dixon the last five years. Ask us for the names. We would be glad to have you see them and learn how you can increase your herd and with less expense increase your milk check.
